PROJECTS

WeChat integration with Chatly

- Identified test scenarios , estimated test efforts and created test plans.
- Maintained regression test suite and other testing scenarios.
- Involved in complete SDLC -Agile methodology. Test scripts were automated using **TestNG framework with Selenium WebDriver** for the application.
- Writing simple to complex **SQL queries** for testing purpose.

Salesforce Marketing Cloud integration [SMFC]

- Performed Functional, System, Regression, Usability, Smoke and end-to-end Integration testing..
- Worked as manual and automated tester and **Analyzed Business and Functional requirements** of the application and worked with Business users to understand project requirements and to figure out the scope of test strategy.
- Provide estimations for the test effort and prioritize the areas needed to be tested first.

Sales and Service Cloud integration [SFSC]

- Leading or coordinating the Clients, Business Analysts with off shore team. Preparation of Test Plan and approach based on the Business requirements
- Mostly worked with Cases, Contacts, Accounts, Solutions and Reports entities in Service cloud application
- Assist development team in troubleshooting and determining root-cause of application defects and issues
